

PANDAWA BAGUS SUDEWA

Bandung, Indonesia | +62 851-7443-3434 | pandawa.bs@proton.me | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Skilled and versatile Software Engineer with 11+ years of professional experience designing and building technology-agnostic software solutions. Proven expertise spanning full-stack web application development, real-time defense tactical systems, and interactive mobile applications. Adept at leading research and development initiatives, optimizing system architecture, and executing Agile methodologies to deliver reliable, high-performance software.

TECHNICAL SKILLS

- **Programming Languages:** C#, C++, PHP, TypeScript, JavaScript, Python
- **Frameworks & Libraries:** .NET, Windows Presentation Foundation (WPF), Laravel, Vue.js, Node.js, Codelgniter, Slim, Twig, jQuery, Unity, Cocos2d, Cocos Creator
- **Databases & Caching:** MySQL, PostgreSQL, SQLite, Redis, Database Design & Optimization
- **Tools, Protocols & Infrastructure:** RabbitMQ, MQTT, Git, REST, RPC, Docker

PROFESSIONAL EXPERIENCE

Hariff Defense | Bandung, Indonesia

Software Engineer | July 2023 – Present

- **Direct the software research and development lifecycle** for cutting-edge products within the Indonesian tactical defense ecosystem, serving as the technical lead for a team of specialized engineers.
- **Architected and engineered a Hybrid Framework** for the *Battle Management System Hybrid* (sub-protocol of *CY-16H*), ensuring sub-second latency for critical military decision-making.
- **Engineered robust software architecture** and integrated messaging protocols to guarantee seamless, real-time system synchronization under constrained network environments.

Niagahoster (Hostinger Group) | Yogyakarta, Indonesia (Hybrid)

Full Stack Developer | November 2020 – February 2023

- **Optimized core internal infrastructure**, including the primary corporate website, proprietary CRM, billing system, and loyalty programs to handle thousands of concurrent transactions daily.
- **Improved application response times and event handling throughput** by integrating caching layers and message brokers into legacy systems.
- **Collaborated closely with cross-functional product teams** in a fast-paced Agile environment to conceptualize, write, test, and release features, decreasing overall release cycle friction.

The WALi Studio | Cimahi, West Java, Indonesia

Software Programmer | September 2013 – March 2018

- **Developed and published over 5 major mobile applications and interactive games** (including *MyQuran*, *Brain Breaker*, and *Salman & Sofia AR+*), reaching millions of active users worldwide.
- **Developed the integration of Augmented Reality (AR)** technologies into an educational application (*Salman & Sofia AR+*), boosting user engagement metrics.
- **Led multiple external technical client projects** in conducting R&D across platforms.

EDUCATION

- **Binus University** | *Bachelor of Computer Science*
 - Expected Graduation: 2027 (Currently Enrolled)
- **Politeknik Negeri Bandung** | *Diploma III in Computer Software Engineering*
 - Graduated: 2013 | GPA: 3.08 / 4.00
 - *Activities*: Chief of Art & Culture Department, Computer Student Association (HIMAKOM)

CERTIFICATIONS

- **HackerRank**: Problem Solving (Basic) | 2020
- **Dicoding Indonesia**:
 - Belajar Pengembangan Machine Learning (2024)
 - Belajar Machine Learning untuk Pemula (2023)
 - Belajar Membuat Aplikasi Back-End untuk Pemula (2023)
 - Cloud Practitioner Essentials (AWS Cloud) (2021)
- **Alterra Academy**: Workshop REST API with Golang | 2021

VOLUNTEERING EXPERIENCE

- **Sumedang Progresif** | *Documentary Photographer* | April 2020 – October 2020
 - Captured and managed media assets for disaster relief and humanitarian initiatives in West Java.
- **Kelas Inspirasi Sumedang** | *Documentary Photographer* | March 2018 – April 2018
 - Documented educational volunteer programs designed to inspire elementary school students.
